Committee Report On Interior Dept.

PLAGUE FUNDS AVAILABLE

Bill Appropriating \$250,000 Passed. Washington Letters--New Fire Station Recommended.

The Council of State was called to order at 3 p. m. yesterday by President Dole, the following Councilors being present: Atlen, Jones, Acnt, isenberg Kaulukou, Robinson, Gear, Nott, Botte Kennedy, Robertson, Gonsaives and Ka-ne. Ministers Muti-Smith, Young, Damon and Attorney General Cooper were present.

The minutes of the preceding meeting were read and approved.

Mott-Smith read a letter from Secretary Hay addressed to President Dole which the latter said would be presented to the Council of State for hearing. The full text of the letter, and also an official letter addressed to Hon. H Sewall by Secretary Hay are as fol-

Department of State. Washington, March 6, 1900. His Excellency Sanford B. Dole, Honolulu.

Sir: Mr. Sewall has reported that on February 19th last, the Council of State, acting upon a recommenda-tion of the Executive Council, voted ar Act (styled Act 1) appropriating 'fo the extension and completion of the sewer system of Honorulu, \$345,253.2out of the moneys which shall be re ceived by the Hawaiian Treasury dur-ing the biennial period ending December 31st, 1901," from a certain loan authorized by an act passed by the legislature of 1896, said appropriation to take effect from the date of its approva-by the President of the United States Mr. Sewall has also reported the action of the Councilors in voting \$100,000 for the suppression of the bubonic plague The text of both measures accompanies

Mr. Sewall's reports.

The President directs me to advise you that he has under this date, March 6, 1900, approved the above-mentioned Act 1. Information of such approval has already been despatched to you by a telegram sent this day to San Fran-cisco to be forwarded to Honolulu by the steamer America Maru sailing tomorrow, February 7th, which telegram

reads as follows: The President has not considered it wise to convene the old legislature, expecting the Council of State to provide for requisite expenditures until Con-gress enacts the Hawalian territorial bill. He approves Act 1 of the Council of State."

The appropriation of \$100,000 for additional sewerage appears to fall under the President's previous authorization telegraphed to you on January 23 last and forwarded by the steamer China or the 24th, as stated in my confirmatory letter to you of January 24th, 1900.

it does not appear to be necessary to review the serious objections, legislative and administrative, which atthat the Hawaiian legislature which went out of existence on the annexa-tion of the Hawaiian Islands should be revived and convened anew to resume the function of legislation. These objections upon earnest consideration appeared to the President to outweigh the favorable aspects of the proposition, to such a degree as to render its adoption impracticable, while on the other hand the necessity of such a step did not appear to be imperative in view of the sufficient powers already possessed by the Council of State under existing law. and the exercise of which powers had already been sanctioned by the President in order to meet the grave sanitary emergency which confronts Ha-waii. The President accordingly directed me to include in the above quoted telegram a negative response to the suggestion of your letter of January

I have the honor to be, sir. Your obedient servant JOHN HAY

Washington, March 16, 1900. Harold M. Sewall, Esq., Honolulu.
Sir: Your No. 195, of the 2d instant,
has been received. You therein report
the reductions of the force in the postoffice and customs departments in order to keep within the limits of the last legislative appropriations. You add that those reductions will delay and impair the operations of the two departments, and that, while it seems elear that the Council of State, under article 81, section 6, of the Hawaiian report Constitution, has the power to appropriate the necessary moneys to put these services on an efficient footing, there is a rejuctance on the part of the Executive to assume such power in requesting the Council so to do; for which reason "the President will asked to sanction the exercise of this power which is urged by every reason of public necessity."

No formal request of the Hawalian Executive in this sense has yet reached the President; but (in view of the sense we will be passed to the passed t importance of maintaining the full ef-ficiency of the postal and customs ser-vices and the mo-tion was carried unanimously. vices, and the urgency of taking neces-sary steps to that end, the President directs that you state to President Dole that he is at liberty to forthwith rec- six closely printed pages. making of the necessary appropria-tions (within proper limits of econo-tions (within proper limits of econoommend to the Council of State the my) for an increase of the postal and customs force, and that if he deem it necessary to obtain the President's express approval of the appropriation, formality of referring the matter to Washington need not delay the timely action which the emergency ap-

the recommunication for an appropriate the recommendation for the factors appropriate the recommendation for the

he Council have taken, by Act No. 5, tio 000, leaving \$240,000, the amount of this bill. Take from this \$137,443.50, he amount of bills due and passed by he Finance Committee, and the sum of 112.556.50 Is left.

Your committee examined some of the bils in the hands of the Finance Committee, particularly the liquor, cl-sar and hack bills, and while the Fi-nance Committee claim they had no au-hority to dispute or refuse to pay any bill approved by the President or other officer of the Board of Health, they were at much pains to explain to us all information they were able to obtain and in some instances they were able hose. o secure discounts.

The matter of the bills for back hire iquor and digars, was explained to us by the President of the Board of Health and the Finance Committee as mainly incurred in the early part of the plague excitement, when many men were acting as volunteers, who received no pay; liquors and cigars were used by the parties at the pesthouse, beer was used at the dining room adjoining he Board of Health office, where the imployes who spent both the day and night there were fed. The hack bills were incurred by all parties; there were some hacks regularly engaged by he day and night by the Board.

We found the system as inaugurates by the Finance Committee of checking gregating and apportioning the blil o the different camps and accounts re markably good and correct. No bill asses them without the check of the arty ordering, the party receiving an a officer of the Board of Health, and

to bill could be paid twice.

The Finance Committee informed us hat this appropriation of \$240,000 will e sufficient only to carry them to March 31st.

We attach a schedule of actual exenses now running, which will only e decreased when the plague cases case, amounting to \$609.64 per day, or 518,289.20 per month. Your committee are of the opinion that an experiences uyer should be employed permanently by the Board of Health to make all the urchases required. A good buyer would ave much more than any salary which yould be paid.

Therefore your committee recomnend the passage of this bill appropri

J. A. KENNEDY. W. C. ACHI. W. F. ALLEN.

Gear moved that the report of the

committee he adopted.
Damon asked if the adoption of the seport carried with it the appropriation of the sum of \$18,000 monthly expenses outlined in the report.

The motion of Mr. Gear, however, was put to the Council before Mr. Da-

The motion, with non was answered. in amendment that the report be laid on the table with the bill was carried Mott-Smith reported that the Execative Council reported progress on the consideration of the Zerbe claim and

would report further soon. A similar taxement was made with regard to the apanese petition which asked that the be exempted from taxes for ne coming year. Robertson: "On behalf of the Judi-

ary Committee I would like to make report on lines 11A and 11B, Act 3, for alary of Second District Magistrate at 2800 and Second Clerk at \$1800 pe annum. The work in the district court increasing constantly. The conges on there is principally in the work of he clerk who has to take the record o ises, and then when an appeal is taken the Circuit Court, he has to copy e evidence and send it up with the other papers. The reasons for making on appropriation for one additional lerk in the district court are even tronger than making an appropriation or another district magistrate. If the work continues to increase at the rate has for the last twelve months he magistrate will have more than he can get along with. For these reasons the committee recommends the passage

f both these items." Cooper favored the insertion of the tems.

Robertson moved that the report be dopted. Amended, that it be accepted considered in connection with the Carried.

Gear reported as chairman of the committee on Department of Interior he desired to await a reading of the eport until Act 6 could be disposed of, in connection with the committee

Plague Fun s Available.

Allen moved that Act 6 be taken from the table and disposed of favorably, in order that disbursements can be made. People relying on the passage and disbursement of the item were suffering and needed the money. The Secretary read the Act, providing for the appro-priation of \$240,000 for the suppression

Material and supplies 6.464 life reports have been pigeon-holed. If
The item, material and supplies, covra the purchase of team of horses, in-rease in horse-feed, horse-shocing and fuel, and the purchase of 3500 feet new would pass this item and cut down on some others."

Your committee, after consulting with the Minister of Interior and the on the necessity of this item being passed by the Council. Robertson that the amount be increased from moved that the further consideration of the bull to the forther consideration of

\$41,464 to \$66,164. The increase of \$24,700 which we recommend is to cover the following Adjourned at 5 p. tems Three new hose companies, one to be located at the head of Nuuanu or Liliha street; one at Kailhi, and one at Waikiki; the cost of each of these to a \$5,050; for the establishment of nook and ladder company at the cen-

ral station, \$4,550; for the purchase of additional hose, \$5,000. Genr: "The Board of Fire Commisoners submitted to the Minister, of interior a supplemental report since December 21st, 1899, giving additions. ema which they considered necessary the present time. The fire up the given March 26th. alley at Mr. Bishop's residence seed to show some necessity for a lire department to be stationed there. A use company would be sufficient, and he power supplied from the Kalihi comping plant would give sufficient orce. They also recommended the stablishment of a hose company at Waikiki-a volunteer company. ecided, however, it would be difficult o establish a volunteer department. and recommended a paid force. Looking over Kalilii, they found there should be a fire house at that place. The Kalihi pumping plant will throw a stream over any building in Kalihi, Waikiki or Nauanu vailey. The ex-pense of establishing these stations. with harness, furniture and sundries

equired, are necessary items."
Damon thought it was a little early to speak of the probable revenues, and he therefore recommended action on he proposed item be deferred until a the proposed tem be deterred until a thorough consideration of the report could be had by himself. He stated the Fire Department had authority to lraw \$60,000 with a payroll under the Act of 1898 and authority for \$20,000; inder the present act there was asked \$10,000, and under the payroll \$1,200 \$300,000. additional. "So that the amount," said The the Mr. Damon, "tast will be at the dispoall of the Fire Department is so large, ind the Government having other but is a matter of sufficient considera-ion to defer the expenditure of so arge an amount mail we see what to extend her sphere of influence in Act 4 will provide."

Achi recommended that instead of ocating a station at Kalihi it be at station at Palama, being more central for that ed by the House. etion of Honolulu.

Upon motion action on the item of ionolulu Fire Department was de-Line 66A, expenses, field work (un-

Article 11—There shall be five (5) directors, who shall be elected by the members of the association, and who shall serve for one year, and until their successors are elected.

Article III—Three (3) of the direct-

ora shall serve as president, secretary and treasurer of the association, respectively, as may be decided by the members.

Article IV-Anyone paying 10 dollars (\$10) to the association shall be a mem

ber thereof for one year.

Article V—Any henevolent, charitable, or religious society contributing twenty-five dollars (\$25) to the treasary shall be represented in the assomember thereof. Article Vi-The directors shall ap-

point a board of five (5) persons, who shall be managers of the hospital, and have authority to expend such moneys as are furnished by the directors for the conduct of the hospital, including the purchase of food, medicine and Air-power companies are combining armiture, and the employment of nec-asary assistance.

Article VII-The directors shall have authority to appropriate moneys from the funds in the treasury, from time to time, as may be necessary for the maintenance of the hospital. Article VHI—Until such time as all

ersons afflicted with diseases other han incurable are admitted to other hospitals, the Victoria Hospital will be open to them under the discretion of ne board of managers.
Article IX—The board of managers shall have full authority to decide whether or not any applicant for ad-

mission to the hospital shall be admit-ied, and shall have power to remove ny patient from the hospital.
Article X-Five (5) members with three (3) directors shall constitute a quorum of the association for the ransaction of all matters of business Article XI-Meetings may be carted any time by the president or secre-

tary. These by-laws may be amended or added to at any meeting.

WHAT TO DO UNTIL THE DOCTOR ARRIVES.

It is very hard to stand idly by and ee our dear ones suffer while awaitng the arrival of the doctor. An Alpany (N. Y.) dairyman called at a drug store there for a doctor to come and eft word for him to come at once on is return. He also bought a bottle of hamberlain's Cough Remedy, which e hoped would give some relief unti he doctor should arrive. In a few cours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, ays the family has since recommend-d Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country.
